

# Vehicle Import and Compliance specialists

**TOP SECRET**

CAPABILITY STATEMENT **AUSTRALIA**

**Top Secret** are your  
vehicle compliance and  
import partners

---

## From Japan to Australia - if it can be complianced we can do it.

---

With 18 years of import experience under our belt, TSI is your one-stop shop for all your automotive compliance needs. Your dealership gains extra capabilities via our services.

Our global network of partnerships ensures that we can provide the most comprehensive services, whether you're looking for rare imports or need assistance with seamless vehicle supply.

No challenge is too great, no detail too small. Our extensive experience makes us the leading company in this highly specialised industry.

As industry leaders, we don't just follow market trends - we set them. We are keen innovators. Through our partnerships, we introduce cars to the market that are ahead of the curve, giving you the opportunity to offer your customers something truly exceptional.

# Australia's leading compliance and engineering service

---

**Wanting to add  
new models to  
your inventory?**

**Speak to  
our team.**

## **We understand Japan's export process**

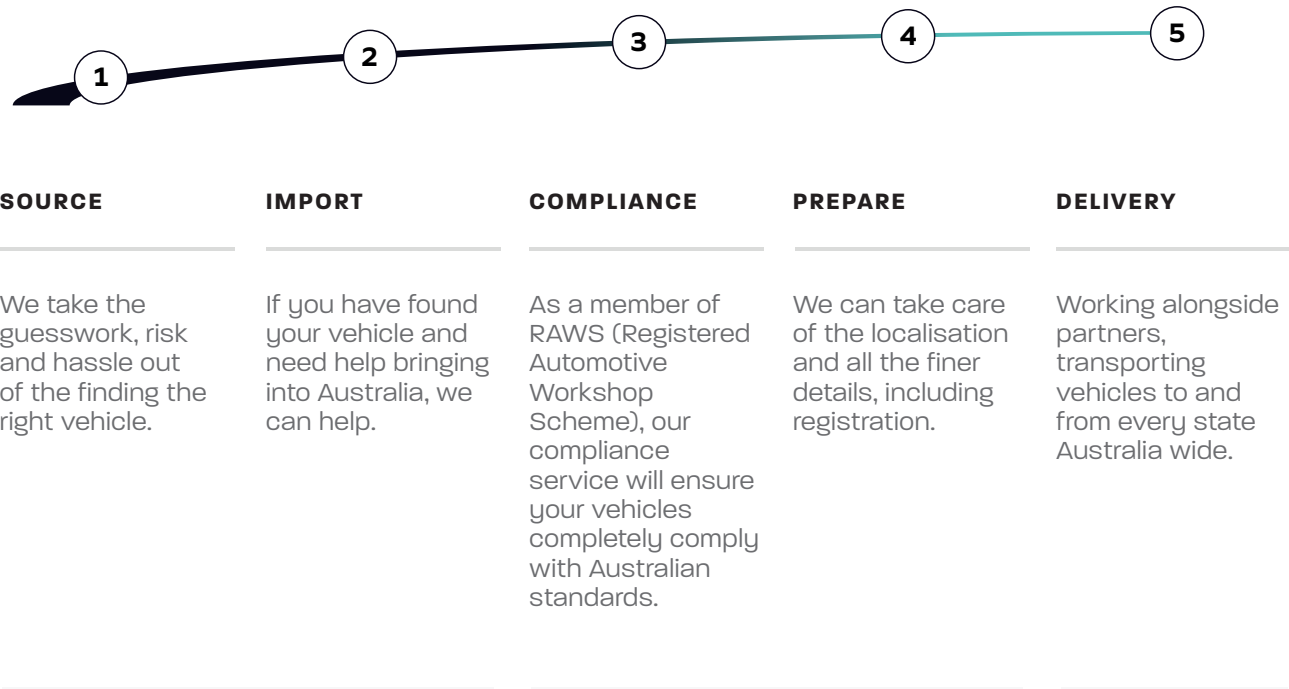

Partner with us to take your inventory to the next level with unique, high-demand vehicles that set you apart in the market. With our expertise in hassle-free car importation to Australia, we

unlock the doors to a worldwide export market for you. Trust us as your expert guides to successful importation, and expand your reach like never before.

---

# Every step from finding your vehicle to having it in on-road in Australia

---

---

# Engineering and compliance in-house capability

---

Looking to simplify your business operations and stay ahead of the competition? TSI has you covered.

We provide a full service. Our in-house Model Reports are tailored to the vehicle models.

Our SEVs (Specialist and Enthusiast Vehicle) database additions and RAV (Register of Approved Vehicles) Entries make compliancing a breeze.

Our in-house Engineering and Testing ensures your vehicles meet the ADR quality standards, all without having to look elsewhere.

Want to be the first to capture market opportunities? We're dedicated to introducing new models first to market, helping you stay one step ahead.

# Future- proof your business and stay ahead of market trends

## Luxury, Super and Hypercars

► At TSI we cater to a wide range of luxury high end performance vehicles including BMW, Mercedes-Benz and Audi. Our supercar experience includes Ferrari and Lamborghini and at the top end we compliance hypercars including Bugatti, La Ferrari, and Pagani, with no modifications necessary, all while retaining the option for left-hand drive registration.

## Hybrid and EV

◄ TSI offers the largest range of EV and Hybrid models to seamlessly update your stock and prepare for the impending market shift towards sustainability. Partner with us to secure a sustainable business future and stay up-to-date with EV and Hybrid models, ensuring that you're always one step ahead of your competitors.

## Localisation

► We specialise in the localisation of vehicle stereos and clusters to ensure a seamless transition for Australian customers. This includes Car Apple / Android Play, as well as English conversions for clusters.

## Team

We have an experienced team of Account Managers, Auto Electricians and Mechanics on site.

Our highly trained team are familiar with a huge range of importation from a number of markets.

## Every little detail

◀ Your dealership enjoys an added layer of convenience by assisting with vehicle detailing, allowing you to ship directly to your customers with confidence and ease. Choose us for a streamlined, customer-focused experience.
